RANGE: 293 KM

100% ELECTRIC

New Citroën ë-Berlingo adds to the standard levels of comfort of Berlingo Van, with the addition of a near-silent driving experience. Plus, instantly available torque ensures smooth acceleration, with no sudden jolts or vibrations whilst driving. The electric motor provides a power output of 100kW and speeds up to 130 km/h, where permitted.

Choose from three driving modes: 'Eco' optimises energy consumption by limiting overall power and energy consumption; 'Normal' works out the best balance between range and dynamic performance; 'Power' helps maintain the vehicle's performance when fully loaded.

On the centre console, there's an easy-to-use ë-Toggle, just selects Drive, Neutral or Reverse.

In addition, Brake Mode uses clever regenerative braking technology to recoup energy back into the battery, energy usually lost during braking or deceleration, further extending the range.

8 YEARS OR 160,000 KM TRACTION BATTERY WARRANTY (WHICHEVER IS EARLIER)

STYLE

New Citroën ë-Berlingo stands out and is instantly recognisable as a Citroën commercial vehicle with its vertically angled windscreen and protective and robust front end design. Its wide sliding doors immediately demonstrate its unrivalled practicality. The rear design continues this functional character and 'van spirit' with bright, vertical rear lights.

SLIDING SIDE DOORS

Citroën e-Berlingo is available with two sliding side doors to make loading and unloading considerably easier, no matter where the vehicle is parked. Each sliding side door is 675 mm wide and 1,072 mm high to accommodate large packages.

4.75 m

EXCEPTIONAL LOAD VOLUME

PAYLOAD OF UP TO 751 KG

Citroën ë-Berlingo offers load volume of 3.8 m³. At the rear, 60/40 split rear doors open to a full 180 degrees for easy access and loading and the width between rear wheel arches ensures that you can carry up to two pallets.

DESIGNED TO MAKE YOUR DAY EASIER

For ultimate versatility, Citroën ë-Berlingo can be fitted with the Loading Pack, which includes enhanced LED lighting, 12V socket, and four extra load securing rings halfway up the load space, complementing the six rings already fitted to the floor as standard. Safe, secure loads are assured.

WELL-BEING

ALL ROUND RELAXATION

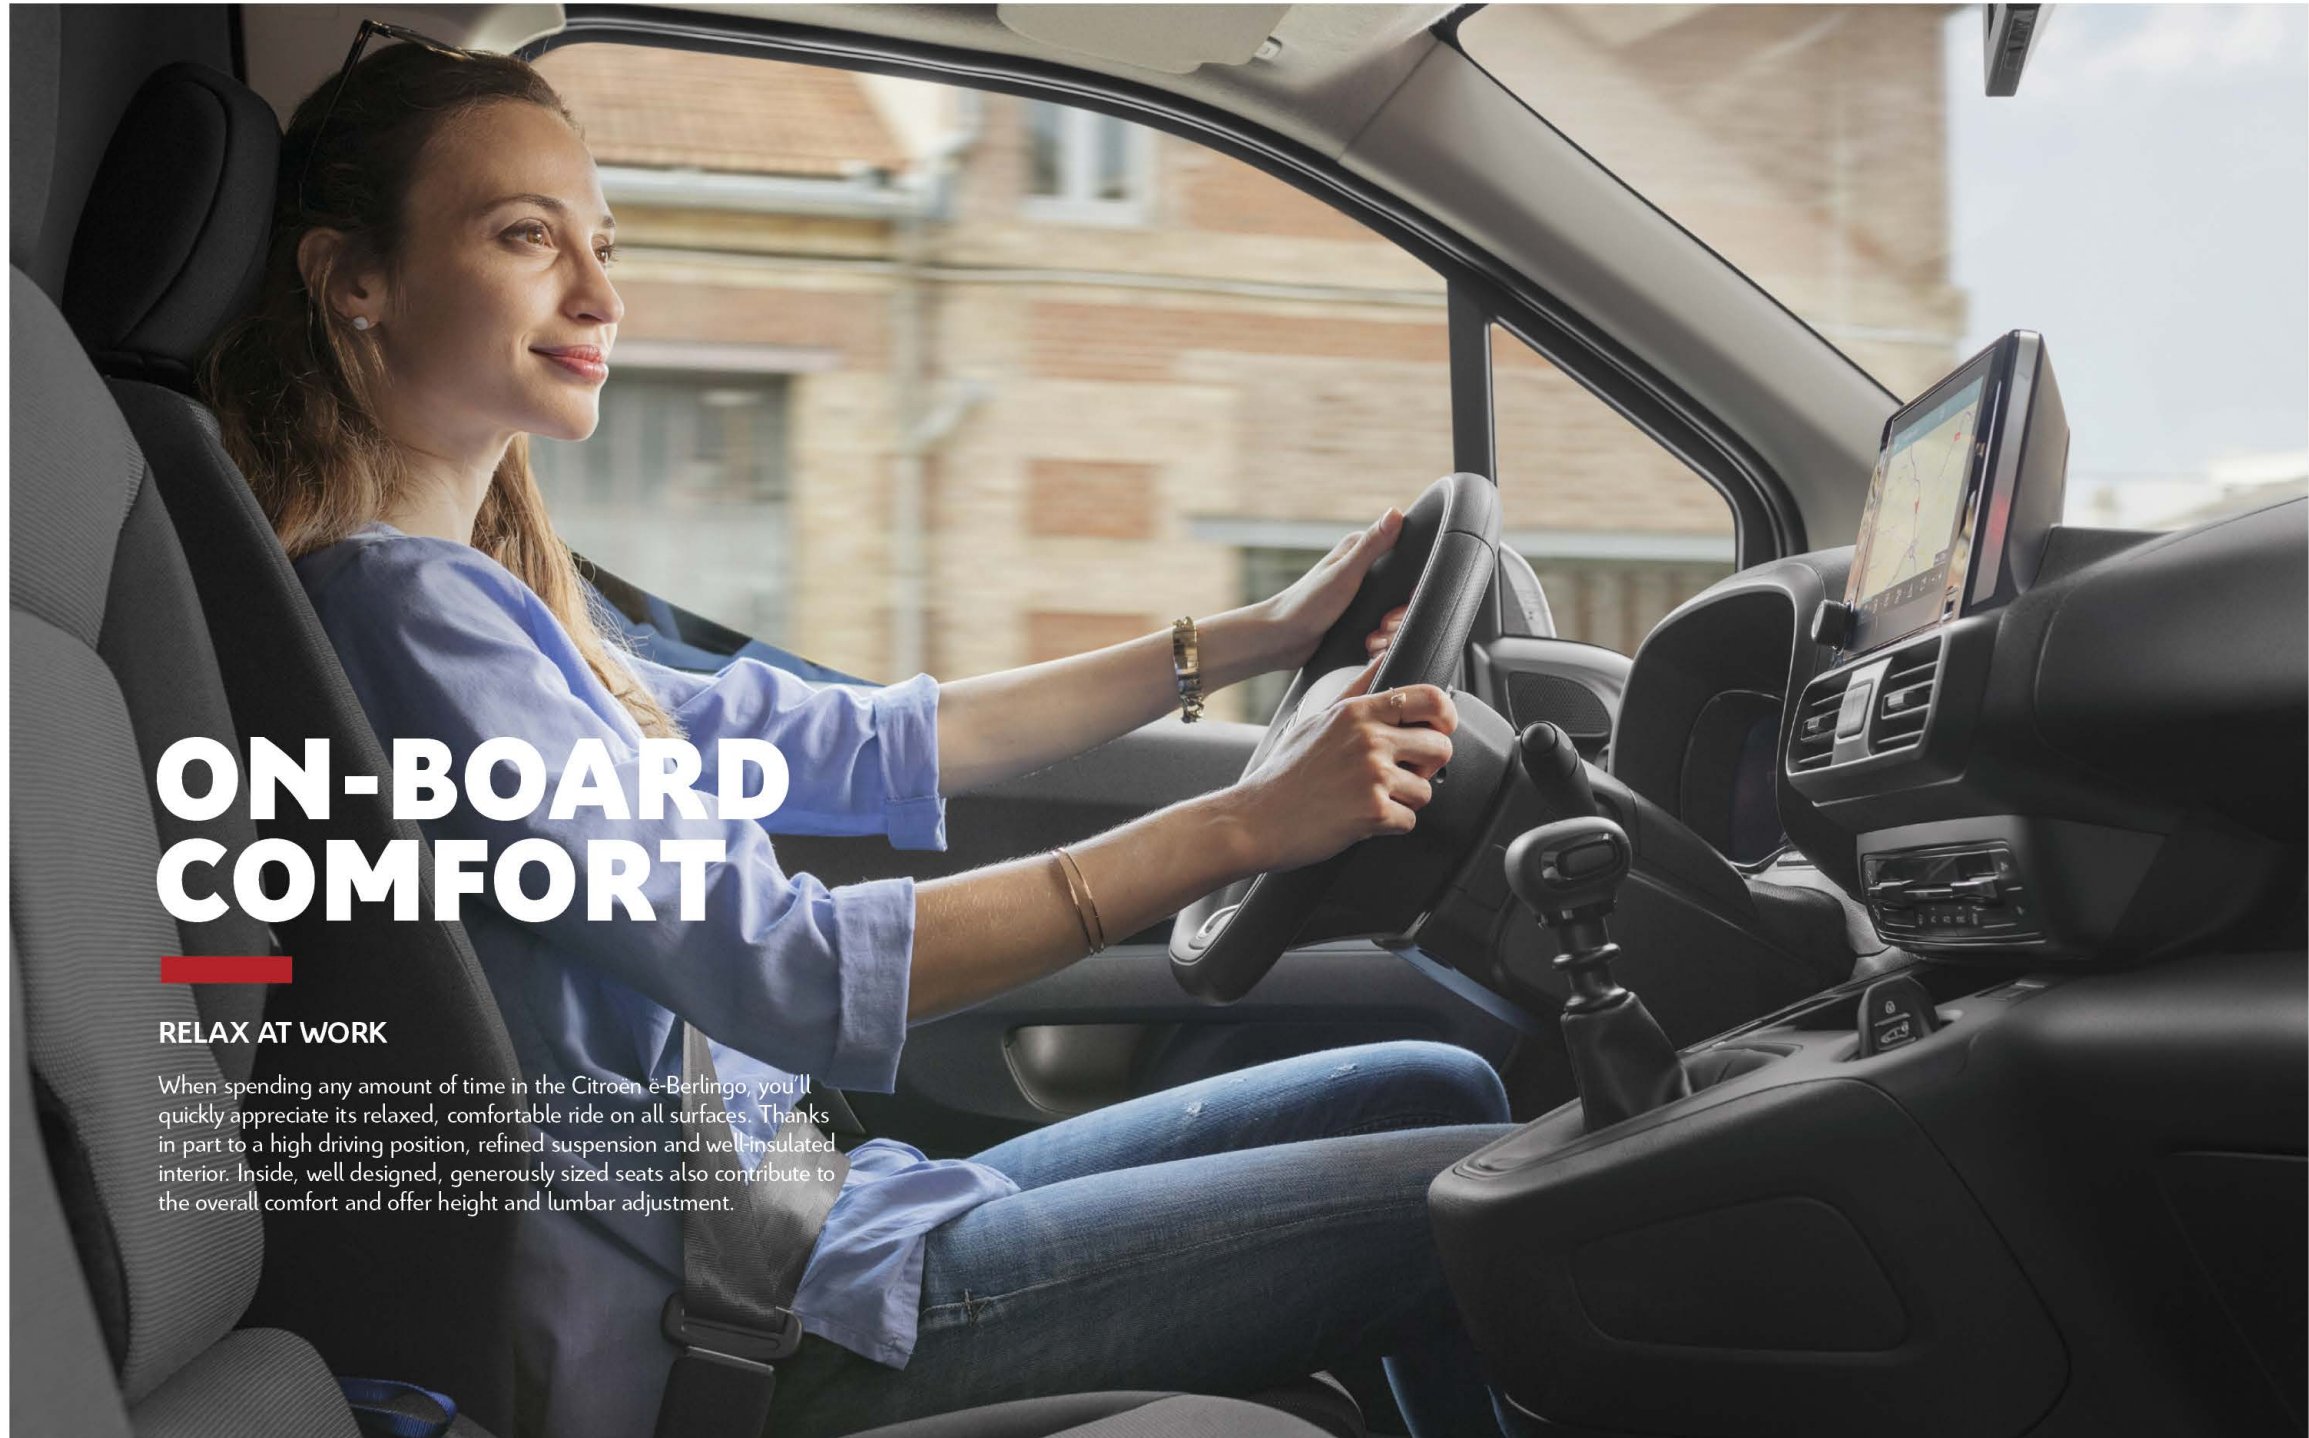

The CITROËN ADVANCED COMFORT® programme delivers innovative, technological and intelligent solutions for the body and mind. Soft-touch materials and low noise levels create a sense of calm, while the interior has been designed to be both simple and versatile throughout. The overall ambience makes every journey feel effortless and intuitive technology ensures the driving experience is easy and serene.

ON-BOARD COMFORT

RELAX AT WORK

When spending any amount of time in the Citroën ë-Berlingo, you'll quickly appreciate its relaxed, comfortable ride on all surfaces. Thanks in part to a high driving position, refined suspension and well-insulated interior. Inside, well designed, generously sized seats also contribute to the overall comfort and offer height and lumbar adjustment.

PEACE OF MIND

Citroën e-Berlingo features up to 5 driving assistance systems, from Anti-Lock Braking System (ABS) to Indirect Tyre Monitoring System. Every advanced feature ensure driving is as easy and stress-free as possible.

Head-Up Display is not available for the Citroën e-Berlingo in Singapore.

MY CITROËN PLAY

Get the most from your compatible smartphone apps through the 8" touch screen with Apple CarPlay® and Android Auto™ functionality as standard.

ELECTRIC POWER: SIMPLE TO USE

WHITE DIODE FOR WELCOME MODE

FLASHING GREEN DIODE FOR CHARGING IN PROGRESS

GREEN DIODE WHEN CHARGING IS COMPLETE

BLUE DIODE FOR DEFERRED CHARGING

New Citroën ë-Berlingo is simple to charge. The electric charging flap is located at the rear of the vehicle on the left and incorporates an LED light sequence that shows the current charging stage.

CHARGING OPTIONS

There are a number of flexible charging options for your New Citroën ë-Berlingo. Charging via a Wall Box or a Rapid Charging terminal are amongst the most rapid.

A Wall Box can be installed at your home or workplace. A full charge takes approximately 7.5 hours using a 7.4 kW charge point, or five hours using a 11 kW charge point (with optional 11 kW On Board Charger).

A 100 kW rated Rapid (DC) Charger, commonly found at a service station, can deliver an 80% charge in approximately 30 minutes. (Cables for these chargers are tethered to the charge point).

To make charging worry-free and easier for our customers, Citroën has partnered with Pod Point (for Wall Box installations) and bp pulse (a public charging network).

l'échappée belle

DRIVING ASSISTANCE SYSTEMS

HILL START ASSIST

Designed to prevent you from rolling back when releasing the brake pedal on steep slopes, Hill Start Assist works on gradients over 3%. The system holds your vehicle for about two seconds, so you can move smoothly from brake pedal to accelerator.

REVERSING CAMERA*

Everyday parking manoeuvres are transformed, with clear visual assistance. The moment you select reverse, the 8" touch screen displays the view behind you, complete with visual guides.

OVERLOAD INDICATOR*

An exclusive innovation, the Overload Indicator warns you if your vehicle's payload is exceeded.

AUTOMATIC ELECTRIC PARKING BRAKE*

The Electronic Parking Brake works automatically when the engine is switched off and releases when you move away. It can be used manually using the control lever.

FRONT AND REAR PARKING SENSORS

This all-round system informs you about obstacles using visual markers on the 8" touch screen and an audible alert.

DIMENSIONS

CITROËN CARE

At Cycle & Carriage, we take pride in the competence of our after-sales staff, who are well-trained and fully qualified to look after your CITROËN vehicle. Our team is always kept up-to-date with the latest developments in the automotive industry, thanks to a rigorous ongoing training programme conducted by our in-house trainers, as well as trainers from the Manufacturer.

With more than a century-long history in the automotive industry in Singapore, you can entrust your vehicle to Cycle & Carriage, knowing that we use the latest recommended diagnostic system – Diagbox, from the Manufacturer. We also use Grade A genuine parts and the right specifications of lubricants and consumables, so as to keep your CITROËN vehicle running at its optimal condition. This is especially important in a hot and humid climate like Singapore.

FOR ADDED PEACE OF MIND, E-BERLINGO COMES WITH A VEHICLE WARRANTY OF 3 YEARS/100,000KM AND TRACTION BATTERY WARRANTY OF 8 YEARS/160,000KM (WHICHEVER IS EARLIER).

For more information on aftersales services and a hassle-free booking, please download the **myC&C** app.

This brochure is intended to demonstrate the general appearance of the CITROËN E-BERLINGO. Some of the photographs depict left-hand drive vehicles whose specifications may not necessarily conform to vehicles imported into Singapore. Cycle & Carriage France Pte Ltd reserves the rights, whilst preserving the essential characteristics of the models described, to introduce at any time modifications and changes of details, equipment or accessories considered necessary.
