CYCLE & CARRIAGE

Exceptional Journeys

BUILT TO CREATE MEMORIES

Experience motoring at its finest with the Outlander, which sports the striking 'Dynamic Shield' design. Redesigned and reengineered from nose to tail to deliver a stylish appearance and significantly improved execution on the road, you can enjoy incomparable refinement and robustness.

DESIGN

NEW DESIGN LED HEADLAMPS

The new design features a technical look with key-line connected through the grille, along with a new inner lens and extension, as well as LED high beam lights.

DYNAMIC SILHOUETTE

On the road, the Outlander's stylish urban looks blend in beautifully with the cityscape. It also comes with Mitsubishi's 'Dynamic Shield', which was built on the philosophy of form following function – designed to express high performance and engineered for active safety.

FULL COLOUR 4.2" TFT LCD INFORMATION PANEL

The generously-sized 4.2" LCD screen, with high-contrast colour and easy-to-operate controls, offers you effortless access to information on your vehicle.

SHARK FIN ANTENNA & REAR SPOILER

The sleek aerodynamic shark fin antenna offers an attractive low-profile design without sacrificing reception, while the optimised rear spoiler further improves aerodynamic performance.

18" ALLOY WHEEL DESIGN
18" alloy wheel design completes the modern exterior of the Outlander.

MORE SPACE, MORE ROOM FOR FUN

The flexible seating arrangement of this 7-seater leaves everything to your imagination. Fold down the 2nd and 3rd row seats if you're moving bulky items, or use the 60:40 split fold down seats to effortlessly accommodate both people and things like sports gear, prams and luggage.

DESIGNED FOR FORM AND FUNCTION

▲ NEW-LOOK FRONT FASCIA

The Outlander comes fitted with a new-look twin-blade grille with black mesh inserts and silver garnish. Its rear styling also features a new bumper design.

▲ DYNAMIC SHIELD

Built on the philosophy of 'form following function', Mitsubishi's 'Dynamic Shield' is designed to express high performance and engineered for active safety.

BETTER HANDLING, AGILITY AND GOOD VISIBILITY

The Outlander's stiffer body, upgraded suspension and recalibrated steering are key to its improved road-holding. It also boasts increased body and structural rigidity for a quieter ride with greatly reduced noise, vibration and harshness (NVH). Plus, the elevated driver's seat provides you a better view of the road.

PERFORMANCE & FUEL ECONOMY

MIVEC ENGINE

More responsive than ever, the MIVEC (Mitsubishi Innovative Valve timing Electronic Control) system continuously and optimally varies the timing of the intake and the exhaust valve according to the engine running conditions. By controlling the power and torque output over a broad engine speed range, the Outlander engine delivers top-class performance and fuel economy for its class.

NEW INVECS-III CVT WITH 6-SPEED SPORTS MODE

CVT (Continuously Variable Transmission) with infinitely variable gear ratios allows the engine to always operate at the optimum RPM, irrespective of the car's speed, thus maximising power and fuel economy. The new-generation CVT offers smoother and improved performance in all driving conditions. Expect quicker response during partial acceleration and better torque delivery for higher fuel efficiency.

AUTO STOP & GO (AS & G)

The engine stops automatically to suppress petrol consumption when you step on the brake pedal and the vehicle comes to a stop.

The engine will start automatically when you release the brake pedal.

ECO DRIVE SUPPORT SYSTEM DISPLAY

ECO DRIVE ASSIST

Shows how fuel-efficiently you are driving under different driving conditions.

ECO SCORE

Number of leaves indicates the points you have scored for fuel-efficient driving.

AS & G MONITOR

Displays the accumulated time the engine has been stopped by the AUTO STOP & GO (AS & G system).

ECO MODE SWITCH

When ECO mode has been activated, the car goes into energy-saving mode for the engine, air-conditioner and 4WD.

PADDLE SHIFTERS

Bring out your best performance on the road. The paddle shifters allow easy shifting of gears, and the ability to simulate power in a manual drive – allowing a heightened and more spirited drive for ultimate enjoyment.

COMFORT & CONVENIENCE

FLEXIBLE SEATING PRIMED FOR FAMILY FUN

The adaptable seating arrangement in this enhanced 7-seater SUV makes it the perfect companion for family activities. Whether you're just ferrying the kids to sports training or going on a road trip, the Outlander accommodates it all comfortably, complete with advanced safety features and fuel economy.

PREMIUM QUALITY LEATHER SEATS

Quite literally, you can sit in the lap of luxury. This 7-seater SUV boasts factory-fitted, soft padded leather seats, and an electronically adjustable driver seat. The Outlander now comes with improved seat cushioning to provide a more comfortable ride.

COMFORTABLE 3RD ROW SEATS

The 3rd row seats are comfortably padded, and the seatbacks can even be reclined with four settings to choose from.

MULTIPLE SEAT CONFIGURATIONS FOR OPTIMAL USAGE

Whether you're transporting people or bulky items, it's always a breeze with the Outlander, since the 2nd and 3rd row seats fold down flat. The 2nd row seats slide forward 250mm for easy access to the 3rd row, and have a 60:40 split configuration, so large items fit easily too.

LEATHER-WRAPPED STEERING WHEEL WITH AUDIO, CRUISE AND BLUETOOTH® CONTROLS

Get quick and easy access to important functions with controls conveniently mounted on the steering wheel. And on longer journeys, enjoy a more relaxed drive with cruise control that lets you automatically maintain your speed without your foot on the accelerator.

REAR AIR BLOWER

Adjustable vents are provided in the rear console to keep passengers comfortable on hot days.

KEYLESS OPERATION SYSTEM (KOS)

Lock or unlock all doors and the tailgate easily with the press of a button on the key. Press the engine switch to start or stop the vehicle.

SUPERIOR SOUNDPROOFING

The Outlander boasts improved handling dynamics and greatly reduced noise, vibration and harshness (NVH), along with increased body and structural rigidity for a quieter and superbly composed ride.

APPLE CARPLAY

Connect your iPhone to get directions, make calls, and listen to music easily – all on the Outlander's handy LCD screen.

GOOD VISIBILITY WITH COMMANDING DRIVING POSITION

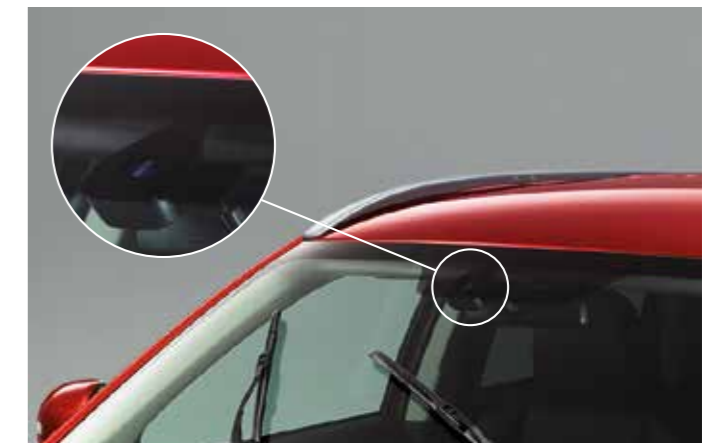

The elevated driver's seat gives you a higher seating position, providing you with a better view of the road. Enjoy easy access and exits as the Outlander comes with a raised hip point.

POWER TAILGATE

Experience convenience and accessibility like no other. The tailgate can be raised or lowered with the single push of a button.

(Available for Style Variant only)

RAIN-SENSING AUTOMATIC WIPERS

These wipers detect raindrops on the front windshield surface and depending on the amount of rain, operate in intermittent mode or switch the wiper speed from low to high automatically.

SAFETY

▲ 7 SRS AIRBAGS

Expect protection from all sides: front airbags, side airbags, curtain airbags, and a driver's knee airbag.

Image of airbag deployment

ELECTRIC PARKING BRAKE WITH AUTO HOLD

A convenient, simple switch on the centre console replaces the traditional manual parking brake lever. The Auto Hold feature, when activated, holds the vehicle stationary at traffic lights – even if you release your foot from the brake pedal. Simply press the accelerator to release the brakes.

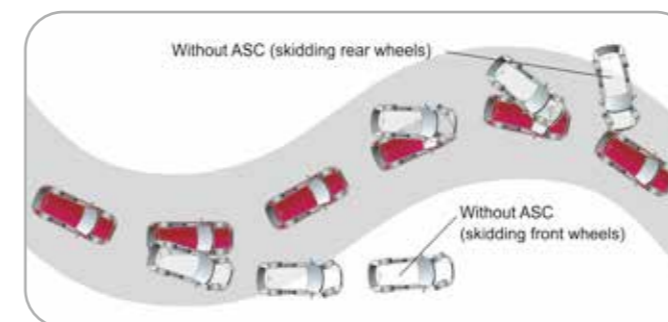

MAXIMUM 5-STAR ASEAN NCAP RATING

The Outlander has been awarded the highest safety rating of five stars by ASEAN NCAP. This means worry-free driving as the car provides good protection to both driver and occupants, and pedestrians alike.

REINFORCED IMPACT SAFETY EVOLUTION (RISE) BODY

The Reinforced Impact Safety Evolution (RISE) body system uses light, high-tensile sheeting to ensure efficient energy absorption in the event of a collision.

HILL START ASSIST (HSA)

When starting on a steep slope, HSA helps prevent the vehicle from rolling backwards when you release the brake. The system does so by maintaining the braking force for up to two seconds until you step on the accelerator.

ACTIVE STABILITY CONTROL (ASC)

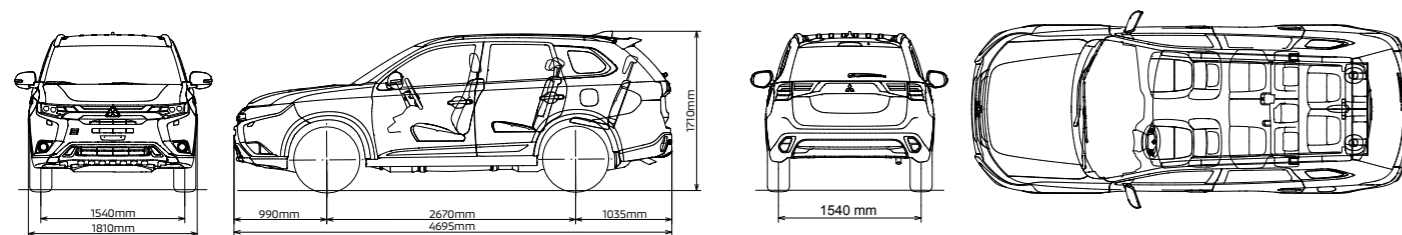

Maintain control and prevent skidding on slippery surfaces or while turning with Active Stability Control (ASC). Automatically adjusting the engine output and applying braking force on the appropriate wheels, you'll be assured of a safer drive.

ABS WITH EBD

The Outlander's Anti-lock Braking System (ABS) reacts as quickly as you do. Manoeuvre safely around obstacles as you slow down. The car's Electronic Brake-force Distribution (EBD) will apply additional force to the rear brakes as needed, assisting in quicker stops even when carrying passengers and heavy loads.
